To whom it may concern:

When P3 came to me I thought the proposition of shared savings was almost too good to be true.

We did not have to pay anything upfront and they only shared in the savings with us 50/50 each month. It was, and has been, truly risk free for our organization.

To date they have saved our company over \$18,000 net to our bottom line. These are savings they uncovered for us using their industry knowledge and expertise.

I highly recommend their service to any business.

Sincerely,

Bourke C. Harvey
