To whom it may concern,

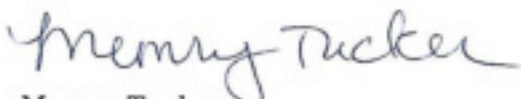

I just wanted to take a minute to write on behalf of P3 Cost Analysts. They engaged with us 3 years ago after presenting their shared savings offer.

It was an easy decision given they were no upfront costs and we only had to share in the savings 50/50 each month.

To date we've saved over \$41,000 net to our bottom line, after their fees. Not only have we saved money, but P3CA has truly been a partner for us. They are on hand to offer ongoing expertise, advise, and service which saves us valuable time and makes our organization stronger.

I would highly recommend their services to any business owner or organization.

Sincerely,

Memry Tucker
